

## Newly Available NIPA Tables

As part of the 2007 annual revision of the national income and product accounts (NIPAs), this report presents NIPA tables 3.18B, 3.19–3.21, 7.19, and 8.1–8.6.

The August 2007 SURVEY includes most of the revised NIPA tables. It also includes an article that summarizes the results of the annual revision and describes changes in the data and methods used to prepare the estimates.

The September issue presented newly available NIPA tables 3.15.1–3.15.6, 3.16, 3.17, 5.9, and 7.15. NIPA

table 2.9 (personal income and its disposition by households and by nonprofit institutions serving households) and table 7.20 (a comparison of NIPA income and outlays of nonprofit institutions serving households with IRS data for revenue and expenses) are scheduled to be published in the November 2007 SURVEY.

The NIPA tables that were published in the August and September issues and in this issue are available on BEA's Web site at <[www.bea.gov](http://www.bea.gov)>. For access to the interactive tables, click on "National."

<b>Equals: State and local government net saving, national income and product accounts (24-44)</b>	51	<b>-50.1</b>	<b>2.5</b>	<b>21.9</b>	

1. Contributions received, interest received, and dividends received are included in the NIPA personal sector. Capital gains net of losses are excluded from the NIPAs.

2. Consists of employer and employee contributions, except employer contributions to their own employee retirement plans.

3. Prior to 1968, dividends received is included in interest received (line 5).

4. Prior to 1985, capital gains (net of losses) of state and local employee retirement plans is included in line 11.

5. Unemployment insurance is recorded as a Federal program in the NIPAs.

6. Consists of estate and gift taxes and Federal investment grants.

7. Excludes current expenditures of Indian tribal government enterprises.

8. In the NIPAs, final expenditure components of GDP are recorded net of sales or receipts; all current account sales by general government are therefore deducted in the calculation of NIPA current expenditures. However, most sales by general government are included in Census total revenue; a reconciliation item for

these sales is therefore required for both receipts and expenditures. The amount of the reconciliation item is less than the sales shown in table 3.10.5 because Census total revenue does not include medical vendor payments made by state and local governments to public institutions (classified as an intragovernmental transaction by Census) or the administrative expenses of state and local employee retirement plans (treated in the NIPAs as sales by government to the personal sector).

9. Includes timing differences that arise from restating the Census Bureau data to a year ending June 30. Census Bureau measures of state and local government revenue and expenditures (lines 1 and 25) primarily represent a fiscal year ending June 30, but some governments use other fiscal years. The NIPA measures shown in this table are for the fiscal year ending June 30, and are consistent with the not seasonally adjusted estimates in table 8.4.

10. These transactions are included in the NIPA personal sector.

11. Net investment is gross investment less consumption of fixed capital for government enterprises and general government.

NOTE. State receipts plus local receipts and state expenditures plus local expenditures do not sum to the consolidated state and local government account totals because grants-in-aid from states to local governments and from local to state governments are netted in the consolidated account totals. In addition, the

receipt category "surplus of government enterprises" and the expenditure category "subsidies" do not sum to the consolidated account totals because the level of government making subsidy payments accounts for them as subsidies while recipient governments account for them as surpluses of government enterprises.

1. Consists of the imputations included in personal income shown in table 7.12 except for employer contributions for health and life insurance (line 174). In table 7.19, these premiums are included in line 4.

2. Consists of income earned by low-income individuals who are not required to file income tax returns, of unreported income that is included in the NIPA measure, and of gross errors and omissions in lines 2 through 15. Also includes the net effect of errors in the IRS adjusted gross income (line 17) and NIPA

personal income (line 1) measures. Such errors can arise from the sample used by IRS to estimate line 17 and from the source data used by BEA to estimate line 1.

3. The misreporting adjustment consists of estimates of income that is unreported or underreported on tax returns and that is included in the NIPA measure. IRS Internal Revenue Service
